

Healora – Global Medical Tourism Platform

A Web Development Project

Name: Aman Koli | B.Tech CSE | 25-29 Sem II

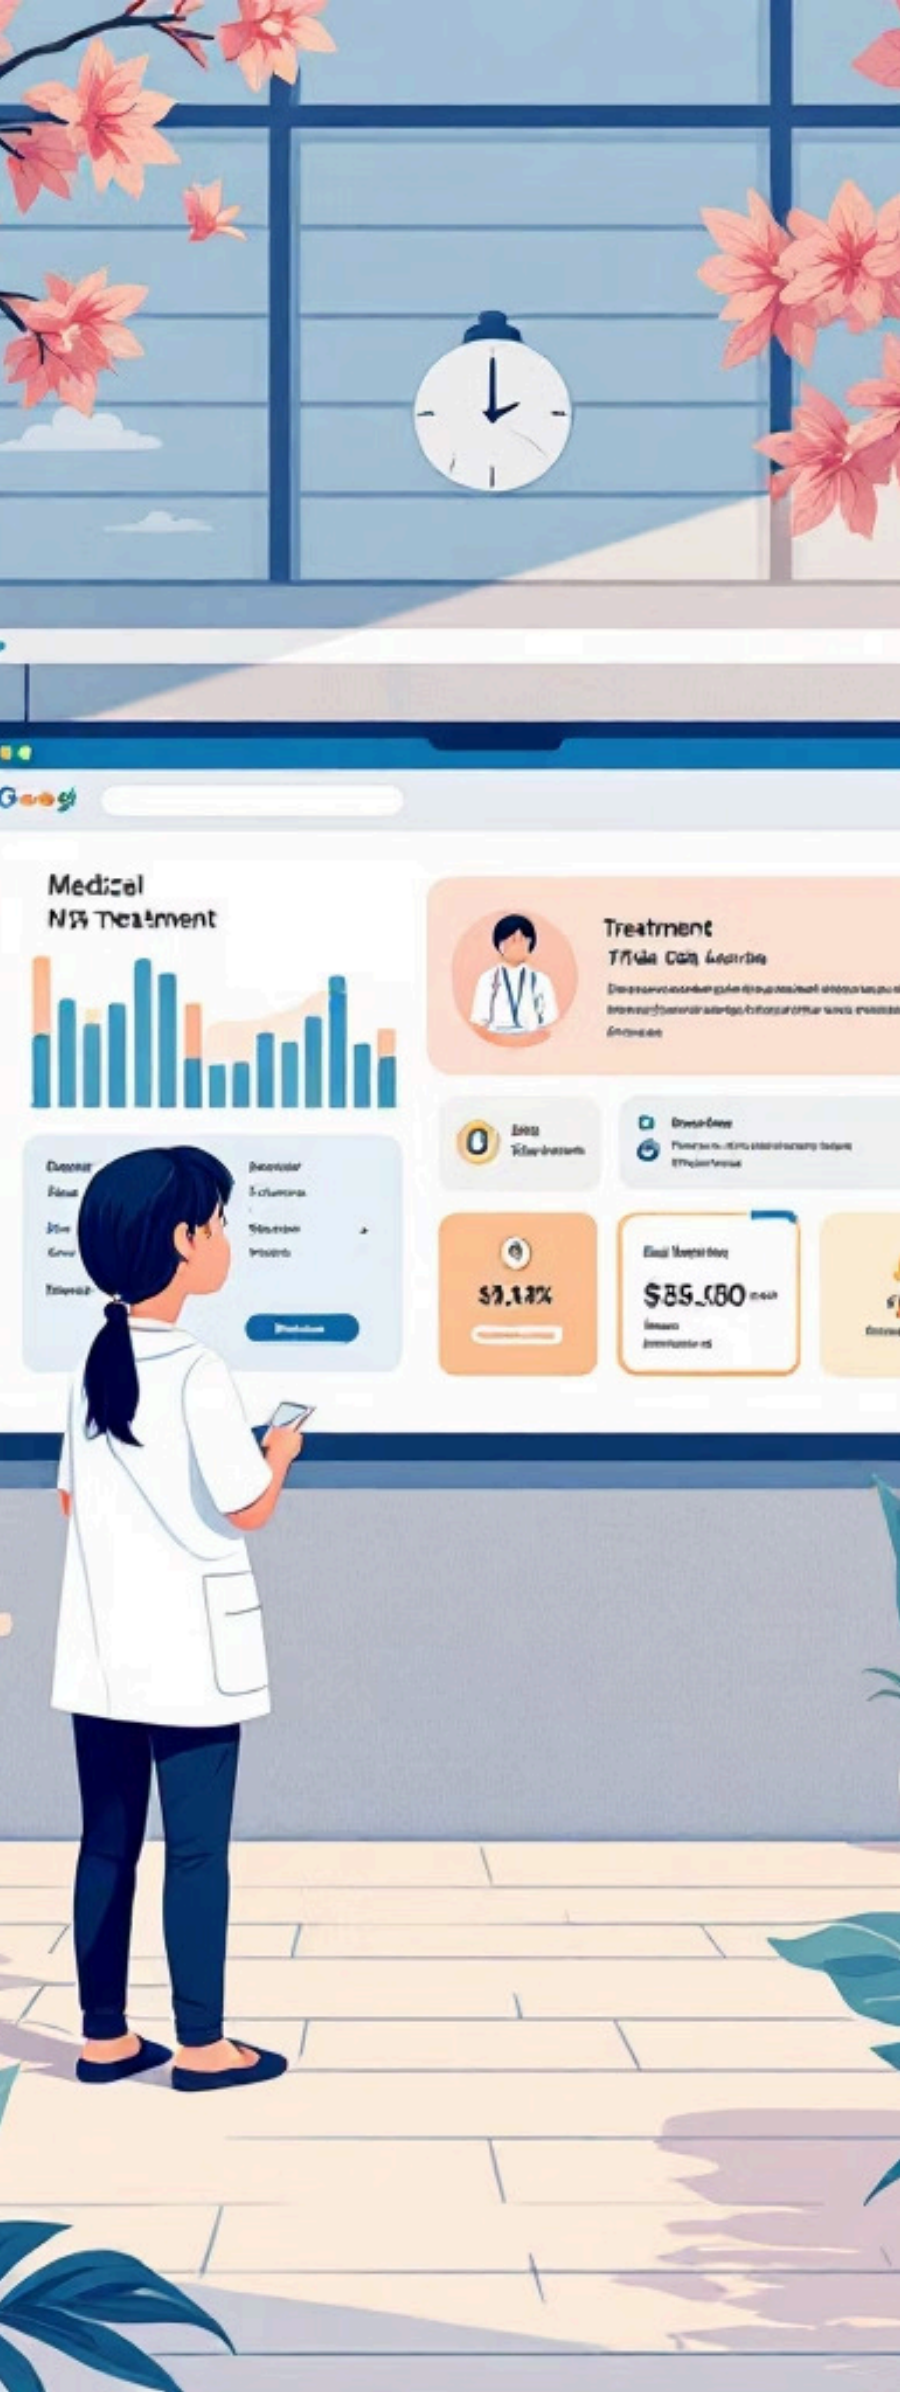

Problem Statement

Medical tourism presents significant challenges for patients seeking quality healthcare abroad. Without reliable guidance, patients face uncertainty and confusion when exploring treatment options across borders.

Key Challenges

- Difficulty finding trustworthy information about international treatments and specialists
- Lack of transparent cost comparisons between countries and hospitals
- Uncertainty about hospital quality standards and accreditation
- Complex process for identifying and connecting with qualified doctors globally

Our Solution: Healora Platform

Healora is a comprehensive web-based platform designed to simplify medical tourism by bringing together treatment information, doctor discovery, and cost comparison in one accessible interface.

Treatment Exploration

Discover a wide range of medical treatments and procedures offered globally

Cost Comparison

Compare treatment costs across multiple countries and healthcare providers

Doctor Discovery

Find internationally recognized doctors and specialists from different countries

Consultation Requests

Request medical consultations easily through integrated forms

Platform Features

01

Responsive Design

Works seamlessly across desktop, tablet, and mobile devices

02

Interactive Filtering

Filter treatments by specialty, country, or cost range

03

Dynamic Comparison

Compare treatment costs side by side between countries

04

Form Validation

Secure consultation request forms with data validation

Technology Stack

HTML

Semantic structure and content organization for accessible, SEO-friendly web architecture

CSS

Modern styling with responsive layouts, animations, and professional healthcare design aesthetics

JavaScript

Dynamic interactivity, form validation, filtering systems, and smooth user experience

Core Pages & Functionality

Home Page

Platform overview with video hero section and smooth scrolling navigation

Treatments Page

Explore procedures and view detailed hospital information

Compare Page

Compare treatment costs across multiple countries

Doctors Page

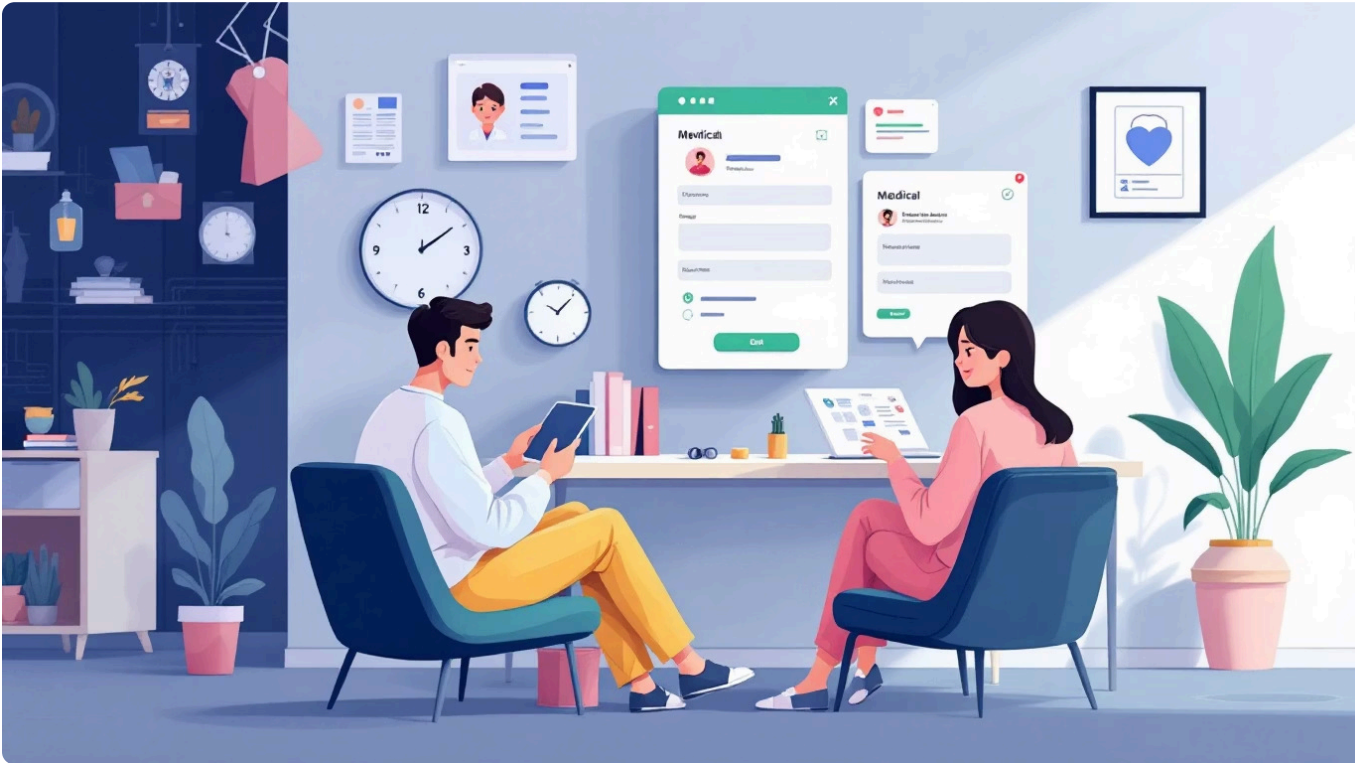

Discover international doctors and specialist profiles

Contact Page

Secure consultation requests with validation

Interactive Features

Dynamic Elements

- Interactive card layouts with hover effects
- Smooth scrolling navigation
- Video hero sections
- Dynamic comparison tables
- Real-time form validation
- Interactive filtering systems

Conclusion

One Platform Solution

Healora brings treatment information, doctor discovery, and cost comparison into a single, accessible interface

Informed Decisions

Patients can make confident healthcare decisions with transparent information and reliable data

Global Access

Access quality healthcare and trusted specialists from around the world
